Important: The information contained in this press release is of a general nature. The information is not adapted to personal or specific circumstances, and therefore cannot be considered as personal, professional, legal, financial, or other advice.

Belgian online bank MeDirect Bank NV, hereinafter MeDirect, will offer Belgian State bonds for the first time in its existence. This will be done through its online platform which has been technically adapted for this purpose. In 2023, CEO Alain Moreau was already very positive about the State bonds, but MeDirect's online platform was not technically ready to offer State bonds. This is now changing.

On the occasion of the launch of the MeDirect online platform for subscribing to Belgian State bonds, MeDirect is proud to announce that it will offer both existing and new customers a 0.20% bonus if they subscribe to the March 2024 Belgian State bonds via this new online platform. With this one-off launch promotion, the bank aims to raise awareness of the platform among the general public.

The terms and conditions of this promotion will soon be available on our website <https://www.medirect.be>.
